Subject: RE: Draft list of CSA3 FY20 Milestones

Hi Caroline,

My draft Milestone looks fine as is to me. Two items for you to know/consider on this:

1
2

Ex. 5 Deliberative Process (DP)

Contact for James Miles:
Chief
Chemical Risk and Reporting Enforcement Branch
Waste and Chemical Enforcement Division
Office of Civil Enforcement
Office of Enforcement and Compliance Assurance
U.S. Environmental Protection Agency
William Jefferson Clinton Bldg., South, Rm. 4111A
1200 Constitution Ave., NW
Washington, DC 20460
202.564.5161
miles.james@epa.gov

Thanks!
John

Subject: Draft list of CSA3 FY20 Milestones

Eric, Kurt, John and Todd,

Jeff Frithsen is asking for a draft list of proposed CSS milestones that we plan to deliver in FY20. (For CSA-3, we have no "products" to be delivered in FY20, only "milestones".) The five draft milestones on rows 7-11 of the attached spreadsheet are based on deliverables that we originally proposed as products before we were told to lump these deliverables into larger products. I've tentatively listed each of you as a point of contact for one of the products. Please let me know if anything needs to be modified, added or deleted from this spreadsheet. Per John's email below, these

draft milestones are meant to be a “good starting point for all of us to discuss FY20 activities and work with center management to develop a final list for their concurrence ...”.

Thanks,
Caroline

Subject: RE: CSS NPD Requesting FY20 Products, Milestones, etc.

CSA and REMD OLS,

I had a few question regarding the recent request for FY20 milestones and products—I have revised the spreadsheet and included an example and additional details. I have also added a column for you to put the name of the “product” for any “milestones” that you add to the sheet—I think this will help the NPD and Center management better understand how and where your FY20 fit into the research portfolio that we entered into RAPID.

Additional Details:

“**Products**” are the major deliverables each OL team listed in the Word research area template and was ultimately entered into RAPID.

“**Milestones**” are any item that you anticipate completing in FY20 that will be part of a “Product.” In many cases OLS listed milestones for each “product” in their research area templates—and this can serve as a good starting point for filling out the spreadsheet; however, you do not have to limit yourself to what was entered into the template. If you and your team have come up with revised or additional items not listed—please feel free to include them in the spreadsheet.

Thank you to those who have already sent me your spreadsheets; you do not need to fill-out the revised sheet if you do not want to—I can migrate the information for you; however, I would appreciate it if you could send me the name of the corresponding “product” for any milestone that you included.

I would like to receive the completed spreadsheets for each output by **Wednesday, October 16th**
Please let me know if you have any questions.

Thank you.
John

Subject: CSS NPD Requesting FY20 Products, Milestones, etc.

CSA and REMD OLS,

We anticipate that ORD IOAA will be requesting a list of FY20 products within the next month. In preparation, Jeff would like to get an idea of what the CSS RAs are planning on developing in FY20. To that end, he would like a list of:

- FY20 Products (e.g., those listed in the research area templates and RAPID)
- Any major “activity,” “milestone” or “interim product deliverables” (i.e., significant items that will be completed that will contribute to a product in FY20 or beyond)

Be assured the list will be considered “DRAFT” and Jeff has no expectations that it will have been first vetted through center management; rather this list will serve as good starting point for all of us to discuss FY20 activities and work with center management to develop a final list for their concurrence and submission to the IOAA for review.

Please work with your output teams to fill out the attached spreadsheet as best you can and send it back to me no later than **Wednesday, October 16th**. I think the research area templates you all prepared should contain much of the information that is being requested.

Please let me know if you have any questions or would like any additional information.

John
